

Unistik[®] 3

Unistik[®] 3 Safety Lancets

Billions of Nerve Endings Will Thank You

When patient comfort matters, trust Unistik 3 Safety Lancets for your capillary testing needs. Featuring Comfort Zone technology and side-activation, Unistik 3 was designed to reduce pain for a more comfortable blood sampling experience. After sampling, the lancet permanently retracts to safely protect against accidental needlestick. Unistik 3 combines enhanced quality of care and safety, for a sampling experience patients *and* healthcare professionals will appreciate.

- **Features Comfort Zone Technology for enhanced comfort**
- **Manufactured in England to exacting standards**
- **Broad range of sizes to meet all testing needs and preferences**

Unistik[®] 3

Exceptional Quality, Comfort and Performance

*Data on File

Proven Performance

In a comparative study, Comfort Zone Technology[®] was shown to reduce overall pain experienced during blood sampling procedures when compared against devices without Comfort Zone Technology*.

- **Greater Comfort**
Features Comfort Zone Technology and side-activation, designed to reduce pain.
- **Exceptional Quality**
Made in England to exacting quality standards, including 100% inspection.
- **Safely Protects**
Permanently retracts to help protect against accidental needlestick and cross contamination.
